

**KENATAR<sup>®</sup>**  
**Hair & Body Shampoo**

**INFORMATION ABOUT KENATAR**

KENATAR shampoo is a topical preparation containing Ketoconazole 2% with the following other ingredients: Sulfur biocomplex, salicylic acid, ammonium lactate, cade oil, triethanol ammonium lauryl sulfate, sodium chloride, pine tar fragrance, apple fragrance, lavender oil, and purified water.

Ketoconazole is a broad-spectrum antifungal, active against dermatophytes and yeasts.

KENATAR is indicated for the treatment and prophylaxis of dandruff (Pityriasis capitis), seborrheic dermatitis, and tinea (pityriasis) versicolor. KENATAR rapidly relieves scaling and pruritus usually associated with these conditions.

**SEBORRHEIC DERMATITIS, DANDRUFF**

Seborrheic dermatitis is a common disorder that causes flaking of the skin. This condition is a red, scaly, itchy rash in various locations on the body.

The most common location is in the scalp, it is commonly called dandruff (Pityriasis capitis).

On the face, seborrheic dermatitis affects the eyebrows, eyelids, glabella, nasolabial fold, or ears. Other areas, such as the central chest, axilla, groin, submammary folds and buttocks may also be involved.

**PITYRIASIS VERSICOLOR**

Pityriasis versicolor is a non-contagious infection of the skin caused by *Malassezia furfur*. This organism is part of the normal skin flora. In susceptible individuals, the condition is often recurrent and may give rise to hyperpigmented or hypopigmented patches on the trunk which may extend to the neck, arms and upper thighs. Treatment of the infection may not immediately result in restoration of pigment to the affected sites.

**THE WAY TO USE KENATAR**

Apply KENATAR shampoo to the wet hair, scalp and body. Avoid contact with the eyes. Lather, leave in place for 3 to 5 minutes and then rinse off with water.

Use KENATAR shampoo 3 to 4 times per week and then 1 to 2 times a week as a maintenance treatment.

**PRECAUTIONS**

- This product should not be used in case of hypersensitivity to any of the components.
- This shampoo is for external use only. Avoid contact with the eyes. If contact occurs, rinse eyes thoroughly with water.
- Ask your doctor about the use of this medicine in case of pregnancy or lactation.

**UNWANTED EFFECTS**

This shampoo is generally well tolerated. In rare cases it may cause irritation, or hypersensitivity reactions.

**STORAGE**

Store at controlled room temperature, protected from light and humidity, beyond the reach of children.
